Attention: Attorney Marcus E. DeBose

La Jolla, California 92037

Dear Attorney DeBose:

I know for a fact that if it were not for you and your passion pertaining to my case I would be writing to you with a conviction on my record. I enrolled your law firm to defend me just short of two (2) years ago and four (4) attorneys later I was blessed to meet you. You are the hardest working attorney I have ever met and by far the best.

When you first called me into your office, I didn't expect much to come of it. I hadn't been very impressed by Pacific Law Center in the past and I wasn't going to get my hopes up. I was so impressed with your professionalism, candor, integrity, sincerity and incredible kindness that when I walked out of your office it didn't matter to me if this conviction would be expunged I was just grateful to have someone talk to me in a respectful manner.

Thank you so very much for all of your hard work in getting my record expunged and my probation terminated. I have never known a man more passionate about his craft. I will recommend you to anyone I know who is in need of a first class attorney.

Sincerely,

April
